SKILLS

Programming Languages:	HTML/CSS, JavaScript, Python, C/C++
Frameworks and Libraries:	Git, React, Tailwind, Node.js, Vite
Tools:	Visual Studio Code, Github, Jira, Visual Studio, Windows OS, Mac OS, Office Suite

PROJECTS

Portfolio Website *HTML/CSS, JavaScript, Framer Motion, React, Tailwind, Vite*

Personal website based in react. Displays skills, projects, and allows users to contact me via social media links or email.

Notepad Editor *Python, Tkinter*

<https://github.com/C295-oss/personal-project—Notebook>

A notepad that can save, save as, open files and allow you to edit text, as well as run python scripts within it.

UIC SparkHacks 2023 hackathon Blog *JavaScript, HTML/CSS, Node.js*

A team and I worked on building a blog for notifying people within the Chicago area on volunteering opportunities. I worked on developing the opening page, and with Node.js to build the server and the database with Node.js and JSON.
